

The logo features the word "MONIN" in a black, serif font with a registered trademark symbol. Above the letter "I" is a small, colorful icon of a drop with a rainbow gradient. Below "MONIN" is the word "IMMUNITY BOOST" in a bold, red, sans-serif font. A horizontal line with a rainbow gradient underline is positioned beneath "IMMUNITY BOOST".

MONIN[®]

IMMUNITY BOOST

Frequently Asked Questions

- **How is Monin Immunity Boost different from other immune-boosting products?**
 - Monin Immunity Boost offers a quick, easy way to add essential vitamins and minerals to a beverage without any significant/noticeably different change to the original flavor.
 - Being in liquid form, Monin Immunity Boost is simpler to mix into beverages than powders. Additionally, the product goes directly from a sealed container into the final beverage.
- **How does Monin Immunity Boost work to support my immune system?**
 - Monin Immunity Boost contains a combination of select vitamins, minerals, antioxidants and botanical extracts that support overall immune health and wellness*.
- **How much Vitamin C does Monin Immunity Boost provide?**
 - Just 2 pumps (½ oz.) of Monin Immunity Boost adds 500mg (556% daily recommended value) of Vitamin C into any beverage. That's the equivalent of eating 5 oranges!
- **What gives Monin Immunity Boost its color?**
 - Natural elderberry extract is a main ingredient in Monin Immunity Boost. Elderberry is an antioxidant, rich in nutrients, that helps provide a boost to the body's immune system*.
- **What beverages should I mix Monin Immunity Boost with/into?**
 - Monin Immunity Boost mixes best with cold beverages such as soft drinks, teas, lemonade, sparkling water and zero-proof mocktails. It also works great in still water with lemon, juices and blended beverages such as smoothies.
 - For beverages where it makes sense, we recommend serving with a squeeze of lemon or lemon wedge.
 - Monin Immunity Boost also works well with cold cocktails.
- **What is the recommended serving size for Monin Immunity Boost?**
 - 2 pumps (½ oz.); you can also offer 4 pumps (1 oz.) as a "double shot".
- **Can I add more than 2 pumps (½ oz.) of Monin Immunity Boost to beverages?**
 - Yes, consider using 4 pumps of Monin Immunity Boost as a "double shot" for soft drinks (soda, tea, water, lemonade, etc.).
 - We don't recommend consuming more than 8 pumps (2 oz.) of Monin Immunity Boost daily per FDA guidelines.
- **Does Monin Immunity Boost contain flavor?**
 - There is a slight citrus and tea-like taste due to the ingredient combination, but no flavor is added.
- **Will adding Monin Immunity Boost change the original beverage's flavor?**
 - Monin Immunity Boost is designed to blend into beverages, quickly and easily, without dramatically changing the original taste/flavor. In some unsweetened beverages and water though, Monin Immunity Boost does add a noticeable citrus minerality flavor, comparable to traditional powdered vitamin packets.

Frequently Asked Questions(continued)

- **Does Monin Immunity Boost have an aroma?**
 - Monin Immunity Boost has a subtle aroma, similar to a dried fig.
- **Are there any beverages you should not add Monin Immunity Boost to?**
 - We do not recommend adding Monin Immunity Boost to coffee products and products containing milk.
- **Will Monin Immunity Boost change the original beverage color?**
 - Darker beverages experience virtually no change while lighter color and clear beverages see a slight reddish, dark purple tint change.
- **Does Monin Immunity Boost make beverages cloudy?**
 - No, it only changes the color for beverages that are clear or lighter in color.
- **What is the base of Monin Immunity Boost?**
 - Vegetable glycerin and water.
- **Does Monin Immunity Boost contain carbs?**
 - Monin Immunity Boost is low in carbs (12g per serving, 4% daily recommended value).
- **Does Monin Immunity Boost contain sugar?**
 - There is no sugar added to Monin Immunity Boost.
- **Will Monin Immunity Boost add calories to my drink?**
 - Monin Immunity Boost contains approximately 50 calories per ½ oz. portion (2 pumps).
- **Does Monin Immunity Boost contain artificial ingredients?**
 - Monin Immunity Boost contains no artificial colors, flavors, sweeteners or preservatives. Some of the vitamin and mineral content, however, is synthetic.
- **Is Monin Immunity Boost a Vegan product?**
 - No, due to the inclusion of certain vitamins.
- **Is Monin Immunity Boost Gluten Free?**
 - Yes.
- **Does Monin Immunity Boost contain caffeine?**
 - No.
- **How much sodium does Monin Immunity Boost contain?**
 - We're happy to confirm Monin Immunity Boost does not contain sodium.
- **Can I take Monin Immunity Boost if I'm currently on medication?**
 - As with all supplements, please consult your healthcare professional before taking Monin Immunity Boost with medication.
- **Is Monin Immunity Boost safe for children?**
 - As with any supplement, we recommend consulting a physician before use. Monin Immunity Boost is not recommended for children under 2.
- **What is the shelf life of Monin Immunity Boost?**
 - 12 months from manufacture date.
 - 30 days from the time the product is first opened.
- **Do you have to shake the Immunity Boost bottle before every use?**
 - No, you may notice some sediment after a couple days if the bottle is not agitated. Simply turning the bottle upside-down will once again fully mix the product.
